Office of the President

December 11, 2024

To Whom It May Concern:

The Council for the Accreditation of Educator Preparation accredits over 500 educator preparation providers, most of which prepare elementary and high school teachers and administrators. CAEP establishes standards for the preparation of educators including standards for content and content pedagogy. In doing so, CAEP works with states, providers and content specialized professional associations to ensure that CAEP standards are met.

CAEP wishes to convey our commitment to advancing a coherent strategy supporting implementation of science standards across states and districts and to participate in advancing K-12 science and engineering. Specifically, CAEP commits to supporting the goals of the National Academies of Science, Engineering and Medicine's Action Collaborative on Advancing Science Teaching and Learning in K-12 education.

Sincerely,

A handwritten signature in black ink that reads "Christopher A. Koch". The signature is written in a cursive, slightly stylized script.

Christopher Koch, Ed.D.
President
Council for the Accreditation of Educator Preparation
