How to Use This Toolkit

This document contains promotional text and imagery for to help amplify an upcoming National Academies workshop. Share the information within this toolkit with your personal networks via email, email newsletters, social media, or other direct engagement. You may also share this toolkit with your institution's communications team for additional promotion. Thank you!

Questions? Contact: Sabina Vadnais, svadnais@nas.edu

About the Workshop

During this two-day virtual workshop, the Environmental Health Matters Initiative will be identifying barriers to and solutions in exploring health risks posed by flooding events, effective adaptation strategies for community resilience, and ways to foster partnerships among government, academia, and the private sector to implement these strategies locally.

This is the fourth workshop in a series. Day 1 of the workshop will be from 12pm-4pm EST on Wednesday, March 13th. Day 2 of the workshop will be from 12pm-4pm EST on Monday, March 18th.
